UNIVERSITÀ DEGLI STUDI DI TRIESTE

Dipartimento di Scienze Chimiche e Farmaceutiche
Dr. Luka Suhadolnik

To prof. Paolo Tecilla

Director of the Department of Chemical and Pharmaceutical Sciences

Object: Justification to present a single commercial offer

The offer includes custom-made plastic parts for experiments with high entropy alloys (HEAs). The same company produced the same or similar parts for the first experiments which showed that the parts work well, however the research on HEAs is very complex and requires to change some parts after they have been used for a few times. Pecenko d.o.o. is able to produce the parts with high accuracy. Also, if I want to directly compare my results obtained up to now on the HEAs, it is best to choose the same company to prepare plastic parts again. Last but not least, they are the cheapest since they are not doing this work for the first time but have already done it not long ago and therefore need less time to do it again. I chose them more than 10 years ago since their quotation was the cheapest for some parts I needed back then and I asked a few companies for an offer.

With my best regards,

Dr. Luka Suhadolnik

Pozdravljeni,

Najlepša hvala za ponudbo.

Sem si premislil in prosim spremenite postavko 1 na 1 kos, zbršite postavko 3 in povečajte postavko 5 na 30 kosov.

Najlepša hvala. Lp, Luka

Subject: new offer

Pozdravljeni,

Prosim za ponudbo za:

- Teflon H-cell 2×
- Ti SEM pin-stubs 20×
- floating cell
- storage box for HEA electrodes
- Teflon holders for HEA electrodes 25×

Podatki so enaki kot prejšnjič: UNITS.

Hvala. Lp, Luka
