UNIVERSITÀ DEGLI STUDI DI TRIESTE

Dipartimento di Scienze Chimiche e Farmaceutiche
Dr. Luka Suhadolnik

To prof. Paolo Tecilla

Director of the Department of Chemical and Pharmaceutical Sciences

Object: Justification to present a single commercial offer

The offer includes Teflon holders for disk-shaped HEA samples. These are consumables that need to be often replaced to assure accurate results. The holders are used for anodic oxidation and for electrochemical tests. Now, they are needed for additional experiments that need to be done to continue the study on HEA catalysts. The first paper on this study is sent to a journal. We expect that we will need to prepare additional catalysts and measure their properties once the review is completed. Therefore, we need high-quality holders. Pecenko d.o.o. has already machined them before (for the first study) and we need the same company to prepare them so we eliminate possible complications and we are able to directly compare the new results with the ones already obtained in the HEA study. Pecenko d.o.o. also offered a lower price per piece this time since we are ordering higher quantities.

With my best regards,

Dr. Luka Suhadolnik

A: MONTINI TIZIANO <tmontini@units.it>

Hi Tiziano,

Attached, please find the offer from Pečenko for Teflon holders. Do I need to write an explanation like for the my previous orders?

The amount is a little higher, since UNITS cannot reimburse the entire amount, I requested for the conference.

Thanks, Luka

Subject: order of Teflon holders

Hello,

I would like to order 50 pcs of Teflon holders for HEA electrodes. Please, send me an offer.

Thank you. Best regards, Luka
